# Research works of UNIMAS graduate students on display

BY MAX ONG

**KUCHING:** Universiti Malaysia Sarawak (UNIMAS) is holding a two-day event for its postgraduate students at the auditorium of the Centre for Academic Information Services, from 9.00am to 4.00pm.

The event, which began yesterday, brings together the key stakeholders in postgraduate studies in UNIMAS and displays the current work of the postgraduate students.

The graduate students from various faculties come together to share information as well as to build up a social networking which might be useful for them in the future.

Among the activities at the event are a research poster competition, seminars and workshops, and will end with a dinner this evening.

For the research poster competition, a total of 59 posters are on display at the auditorium and they are being judged by UNIMAS professors and academics who take into account

the research methodology, quality, results, impact of findings and poster design.

UNIMAS hopes that all the participants will attend the five workshop sessions during the two-day event.

The event this year aims to introduce methods and activities that can be carried out to achieve excellent academic research as well as to encourage UNIMAS scholarship recipients to continuously promote their research findings as an ongoing development programme.

The event was declared open by UNIMAS Vice-Chancellor Datuk Dr Khairuddin Abdul Hamid yesterday.
